Narendra Singh

Last updated in April 2026

Full-Stack Developer | AI Integration Specialist | Data Analyst

narendrasingh.coder@gmail.com | +91 967 253 6268 | **Portfolio** | LinkedIn | GitHub | LeetCode

Professional Summary

Full-Stack Developer & Data Analyst with **35K+ monthly users** on live projects and **95% AI cost optimization** achievement. Competitive programmer with **900+ problems solved** (370+ LeetCode 1450+ rating | 1300+ CodeChef). Specialized in visualization dashboards, RAG-based AI systems, and scalable web apps. Former **President of Dev Club** | **4X Hackathon Winner** | **6+ open-source contributions**.

Technical Skills

Languages & Core: JavaScript, Python, SQL, NoSQL, HTML5, CSS3, DSA
Data Analytics & Visualization: Tableau, Pandas, NumPy, Matplotlib, Seaborn, Excel, Data Cleaning, EDA
Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, Figma, Responsive Design, SEO Optimization
Backend: Node.js, Express.js, Django, FastAPI, RESTful APIs, JWT, OAuth 2.0, WebSockets
Databases & ORMs: PostgreSQL, MongoDB, MySQL, Prisma, Vector Databases
AI/ML & GenAI: LangChain, LangGraph, RAG Architecture, Fine-Tuning (LoRA, QLoRA), Transformers, LLM Integration, Machine Learning
Cloud & DevOps: AWS (EC2, S3, Lambda), GCP, Azure, Docker, CI/CD, Linux

Professional Experience

Full Stack Developer Intern | SabApplier AI, IIT Roorkee | Certificate — May 2025 – Aug 2025

- Engineered a LangChain token optimization pipeline cutting AI API usage from 40K–50K to 2K–3K tokens per call (**95% cost reduction**), reducing response latency from 7–8s to 3–4s
- Built a production browser extension (Django, React, JWT) with intelligent auto-fill, consent-based memory, and automated document categorization; implemented modular prompt engineering across multiple AI workflows

Full Stack Developer Intern | Janusmaad Digital — Nov 2025 – Present

- Building end-to-end B2B websites for thousands of concurrent users with SEO-optimized architecture, semantic HTML, Core Web Vitals compliance, and structured data markup across Shopify, WordPress, and React/Next.js stacks

Featured Projects

Fraud Detection Analysis Dashboard | GitHub | Live — Apr 2026

- Designed an end-to-end fraud detection analysis using machine learning on financial transaction data to monitor suspicious behavior and operational risk
- Built executive KPI dashboards reducing manual fraud review effort by surfacing high-risk accounts, suspicious transaction clusters, and abnormal behavior patterns
- **Stack:** Python, Jupyter, Machine Learning, Tableau, Data Visualization, EDA, Feature Engineering

Hotel Booking Analytics Dashboard | GitHub | Live — Apr 2026

- Developed an interactive analytics dashboard to examine hotel booking demand, cancellation behavior, customer segments, seasonal trends, and revenue performance
- Designed visualizations covering booking conversion, lead time analysis, market segments, and occupancy insights, enabling data-driven revenue and capacity planning
- **Stack:** Python, Jupyter, Machine Learning, Tableau, Hospitality Analytics, Demand Forecasting

nstBuddy.in – Student Q&A Platform | GitHub | Live — Jan 2025

- Architected a high-traffic platform sustaining **1,200+ daily active users** and **200K+ total events**; recognized as the top campus academic resource
- Built a live Google Sheets ↔ PostgreSQL sync pipeline, enabling non-technical data entry and a real-time analytics view over 65K+ weekly interactions
- **Stack:** React, Node.js, PostgreSQL, Google Sheets API, WebSocket, Python, Jupyter

Rapido Rides Analytics Dashboard | GitHub — Apr 2026

- Engineered an interactive data analytics dashboard for Rapido rides data to uncover insights related to ride volumes, driver performance, and operational efficiency
- Designed visualizations to track key metrics and optimize ride allocations across different zones and times
- **Stack:** Tableau, Data Visualization, Analytics, SQL, Python

Certifications & Leadership

Certificates

4X National Hackathon Winner | 2X GDG Visual | AppX | Mumbai Hacks | HackWithIndia — 2024 – 2025
Former President, Dev Club | Runner Up GDG | SIH Participant | Smart India Hackathon Qualifier
Participation: Google Cloud Agentic AI Day (Hack2skill) | Mumbai Hacks 2024 | HackWithIndia | AppX Hackathon

Education

Newton School of Technology, Rishihood University — Sonipat, Haryana 2024 – 2028
B.Tech in Artificial Intelligence & Machine Learning (Dual Degree) **CGPA: 8.00 / 10.0**

NBF Public School — Senior Secondary (Class XII) 2022 – 2023
Subjects: Computer Science & Mathematics **74.6%**
